Charging the Wireless Microphones

1. Put the wireless microphones on the charging cradle.
2. Connect to the power source.

During charging, the battery indicator glows red. When the battery capacity reaches 100%, the battery indicator glows green.

When you charge the wireless microphones, the wireless microphones will start automatically. You can also long tap the mute button on the wireless microphone for 3 seconds to turn it on.

Note: If it is the first time you use the wireless microphones, you need to fully charge them.
If the wireless microphones are not in use, we still recommend you to charge them even when the battery is full.
If you purchase video conferencing system and wireless microphones together, they are already paired. Just turn the wireless microphones on to use them. Make sure a DD10 USB dongle is connected before you use the wireless microphones.

If you purchase wireless microphones separately, you need to pair them with video conferencing system manually.

To pair wireless microphones with video conferencing system:

2. Select Add Wireless Micphone.
3. Place the wireless microphones on the charger and long press the mute button for 5 seconds until the mute LED indicator fast flashes yellow. The wireless microphones are paired with the video conferencing system.
