Package Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

- Charging Cradle
- CPW90 Wireless Mic×2
- DD10 USB Dongle
- 1.8m Micro USB Cable
- Power Adapter
- Quick Start Guide

Component Instruction

- Battery Indicator
- Built-in Microphone
- Mute Button
- Charging Slot

Charging the Wireless Microphones

1. Put the wireless microphones on the charging cradle.
2. Connect to the power source.

During charging, the battery indicator glows red. When the battery capacity reaches 100%, the battery indicator glows green.

When you charge the wireless microphones, the wireless microphones will start automatically. You can also long tap the mute button on the wireless microphone for 3 seconds to turn it on.

Note: If it is the first time you use the wireless microphones, you need to fully charge them. If the wireless microphones are not in use, we still recommend you to charge them even when the battery is full.
Pairing with the Video Conferencing System

If you purchase video conferencing system and wireless microphones together, they are already paired. Just turn the wireless microphones on to use them. Make sure a DD10 USB dongle is connected before you use the wireless microphones.

If you purchase wireless microphones separately, you need to pair them with video conferencing system manually.

To pair wireless microphones with video conferencing system:
2. Select Add Wireless Microphone.
3. Place the wireless microphones on the charger and long press the mute button for 5 seconds until the mute LED indicator fast flashes yellow.
   The wireless microphones are paired with the video conferencing system.

Unbinding the Paired Wireless Microphones

If you want to pair new wireless microphones with your video conferencing system, you need to unbind old microphones.
2. Select the desired wireless microphone and press the OK key.
3. Select Unbind.
   The screen prompts “Unbind device?”
4. Select OK.

Finding the Paired Wireless Microphones

2. Select the desired wireless microphone and press the OK key.
3. Select Find.
   The mute LED indicator flashes red and green alternately.
4. Select Cancel.

Muting or Unmuting the Wireless Microphones

1. Tap the mute button to mute it.
   The mute LED indicator glows red.
2. Tap the mute button again to unmute it.
Regulatory Notices

Operating Ambient Temperatures
- Operating temperature: +32 to 104°F (0 to 40°C)
- Relative humidity: 5% to 90%, noncondensing
- Storage temperature: -22 to +160°F (-30 to +70°C)

Warranty
Our product warranty is limited only to the unit itself, when used normally in accordance with the operating instructions and the system environment. We are not liable for damage or loss resulting from the use of this product, or for any claim from a third party. We are not liable for problems with Yealink device arising from the use of this product; we are not liable for financial damages, lost profits, claims from third parties, etc., arising from the use of this product.

Explanation of the symbols
- DC symbol is the DC voltage symbol.
- WEEE Warning symbol

To avoid the potential effects on the environment and human health as a result of the presence of hazardous substances in electrical and electronic equipment, end users of electrical and electronic equipment should understand the meaning of the crossed-out wheeled bin symbol. Do not dispose of WEEE as unsorted municipal waste and have to collect such WEEE separately.

Restriction of Hazardous Substances Directive (RoHS)
This device complies with the requirements of the EU RoHS Directive. Statements of compliance can be obtained by contacting support@yealink.com.

Safety Instructions
Save these instructions. Read these safety instructions before use!

General Requirements
- Before you install and use the device, read the safety instructions carefully and observe the situation during operation.
- During the process of storage, transportation, and operation, please always keep the device dry and clean, avoid collision and crash.
- Please do not dismantle the device by yourself. In case of any discrepancy, please contact the appointed maintenance center for repair.
- Please refer to the relevant laws and statutes while using the device. Legal rights of others should be respected as well.

Environmental Requirements
- Place the device at a well-ventilated place. Do not expose the device under direct sunlight.
- Keep the device dry and free of dusts.
- Do not place the device on or near any inflammable or fire-vulnerable object, such as rubber-made materials.
- Keep the device away from any heat source or bare fire, such as a candle or an electric heater.

Operating Requirements
- Do not let a child operate the device without guidance.
- Do not let a child play with the device or any accessory in case of accidental swallowing.
- Please use the accessories provided or authorized by the manufacturer only.
- The power supply of the device shall meet the requirements of the input voltage of the device. Please use the provided surge protection power socket only.
- Before plugging or unplugging any cable, make sure that your hands are completely dry.
- Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathebath, washowel, kitchen sink, wet basement or near a swimming pool.
- During a thunderstorm, stop using the device and disconnect it from the power supply.
- When the device is left unused for a rather long time, disconnect it from the power supply and unplug the power plug.
- When there is smoke emitted from the device, or some abnormal noise or smell, disconnect the device from the power supply, and unplug the power plug immediately.
- Contact the appointed maintenance center for repair.
- Do not insert any object into equipment slots that is not part of the product or auxiliary product.
- Before connecting a cable, connect the grounding cable of the device first.

Battery Requirements
- Do not immerse the battery into water, which could short-circuit and damage the battery.
- Do not expose the battery to an open flame or leave the battery where it could be subjected to extremely high temperatures, which could cause the battery to explode.
- Do power the handset off before removing the battery.
- Do not try to use the battery for the power supply of any device other than this handset.
- Do not open or mutilate the battery, released electrolyte is corrosive and may cause damage to your eyes or skin.
- Use only the rechargeable battery pack delivered with the handset or those rechargeable battery packs expressly recommended by Yealink.
- Defective or exhausted battery should never be disposed of as municipal waste. Return old battery to the battery supplier, a licensed battery dealer or a designated collection facility.

Troubleshooting
The unit cannot supply power to Yealink device.
There is a bad connection with the plug.
1. Clean the plug with a dry cloth.
2. Connect it to another wall outlet.
The usage environment is out of operating temperature range.
1. Use in the operating temperature range.
2. The cable between the unit and the Yealink device is connected incorrectly.
3. Connect the cable correctly.
4. You cannot connect the device properly.
5. You may have connected a wrong Yealink device.
6. Use the correct power supply.
Some dust, etc., may be in the port.
1. Clean the port.
2. Connect your dealer or authorized service facility for any further questions.

FCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

IC Statement
This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. CAN ICES-3(B)
Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes : (1) l’appareil ne doit pas produire de brouillage, (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

NMB-3(B)
Radiation Exposure Statement
This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
Le potentiel de danger est évalué en fonction de la puissance émise par l’appareil. Le potentiel de danger est inférieur à 1 mW (1 mW/m²) en fonction de la puissance maximale. L’équipement doit être installé et positionné de manière qu’il n’émet pas plus de 1 mW/m² dans la direction de l’utilisateur.
